To Whom it may concern,

My name is Mark Hochwender and I have been practicing Naturopathy and psychotherapy for over 25 years. I've been involved in both teaching, development of theories and procedures, and in private practice. I have been using Neuro Modulation Technique as taught in NMT seminars since September of 2002.

I have used NMT in re-regulating a very wide range of conditions. Examples of a few of the kinds of conditions that NMT has shown itself to be useful with are: colds, flus, allergies, back pain, high blood pressure, fibromyalgia. The NMT system works as disclosed and is clearly taught by the use of the MMT seminar manual. Following the NMT system has taught in seminars and in the manual leads to very clear and effective results. It is very clear that NMT is useful in treating patients. I have seen this again and again in a wide variety of circumstances.

A simple example would be a young man presented with severe acute and yet reoccurring eczema. The primary pathway used was the physical agent pathway as presented in the NMT seminar manual. The Physical Agent Pathway as it appears in the NMT manual was indicated and applied. The full results were obvious within a couple hours of NMT session and in the over a year since, there has been no recurrence.

Sincerely,

Mark Hochwender
